

BRACKETS & BUCCAL TUBES

The Dynamic Duo of Orthodontic Excellence

At Mirabay Orthodontics, we get it—these aren't just pieces of metal. They're the unsung heroes behind every beaming smile you create. That's why we won't overwhelm you with an endless catalog of brackets and tubes (because who has time for that?).

Instead, we've done the legwork to curate a lineup of premium options that vibe perfectly with the systems and prescriptions you already know and trust. No hard sells, no 'you should try this instead' nonsense—just solutions tailored to fit the way you like to work.

Oh, and here's the kicker: you're getting all the high-caliber quality without funding some CEO's yacht collection. We're all about keeping things straightforward, efficient, and easy on your bottom line.

So go on, make our day
Drop us a call. We'll hook you up with the perfect fit that keeps your practice humming and your patients smiling ear to ear.

At Mirabay Orthodontics, we're not here to change the way you work
We're here to make it better. Let's do this.
