

ELASTOMERICS

Yeah, we know—not exactly the headline act

But that's where Mirabay Orthodontics flips the script. We won't put you to sleep listing every elastic and chain we offer. We get it: you and your staff are tired of elastics that lose their stretch faster than a rubber band on a hot day, snap mid-treatment, or leave that dreaded half-moon tear. And those rough edges that drive patients up the wall? We've heard about them.

That's why we offer top-notch quality elastics and chains that perform longer, stay strong, and stretch consistently, keeping patients comfy and compliant. No more interruptions to treatment plans or frustration during appointments.

Just give us a call, tell us what's on your wish list, and we'll tailor an elastic solution that actually works with you, not against you.

Go on, make our day
we're ready to bring
the fun back to your
workflow and results
you'll love.
